Mr. Randy Bridge, City Manager
331 South Church Street
PO Box 419
New Carlisle, OH 45344

Dear Mr. Bridge,

The Clark County Emergency Management Agency is in the process of completing the 5-year update to the Clark County Multi-Jurisdictional Hazard Mitigation Plan.

Attached is a brief Hazard Mitigation Questionnaire to be completed by your community. Also attached are countywide mitigation actions that have been identified to be included in the Countywide Multi-jurisdictional Plan for the County and your community. Please review these previously identified action items for your community, then mark and return them to our office as **new, completed, deleted, deferred, unchanged or ongoing**. If the action item is unchanged please indicate the reason it is unchanged. Your community may also submit additional future mitigation projects or activities to be included in the updated plan. Some examples of Hazard Mitigation Grant Program projects that may qualify for future project funds are:

- Acquisition of real property for willing sellers and demolition or relocation of buildings to convert the property to open space use.
- Retrofitting structures and facilities to minimize damages from high winds, earthquake, flood, wildfire, or other natural hazards.
- Elevation of flood prone structures.
- Development and initial implementation of vegetative management programs.
- Minor flood control projects that do not duplicate the flood prevention activities of other Federal agencies.
- Localized flood control projects, such as certain ring levees and floodwall systems, which are designed specifically to protect critical facilities.
- Post-disaster building code related activities that support building code officials during the reconstruction process.

To learn more about the Hazard Mitigation Grant Program you may visit FEMA's website at: <https://www.fema.gov/hazard-mitigation-assistance>

24/7: 937-605-0576
Fax: 937-327-3862

-2-

Please respond by returning the attached questionnaire with your community's action item updates by mailing or emailing to the Clark County Emergency Management Agency, Attn:

Ms. Lisa D'Allessandris, Clark County Communications Center, 3130 East Main Street, Suite 1E, Springfield, Ohio 45505; Email: ldallessandris@clarkcountyohio.gov.

Please respond no later than Friday, March 15, 2019.

Once updated, the Draft Plan will be posted on the County EMA website <http://www.clarkcountyohio.gov/index.aspx?NID=158> by April, 2019, for review and comments. Thereafter, the plan will be submitted for FEMA plan approval pending adoption. Once FEMA has approved the plan, your community will be asked to pass a resolution adopting the plan. The adoption must be done within one year after FEMA's approval has been given. (Note: township trustees are *not* required to pass a resolution adopting the plan since the County Commissioners will adopt the plan on behalf of all unincorporated areas.) There is no cost to the community to participate in the planning process. Those communities not participating in the plan will be ineligible for Pre and Post Hazard Mitigation Grant Program Funds.

Please do not hesitate to contact me should you have any questions or would like additional information. We look forward to serving Clark County in preparing these plan updates and we encourage your community's participation.

Sincerely,

Ms. Lisa D'Allessandris, Director
Clark County Office of Emergency Management

If the action item is unchanged please indicate the reason it is unchanged. Your community may also submit additional future mitigation projects or activities to be included in the updated plan. Some examples of Hazard Mitigation Grant Program projects that may qualify for future project funds are:

- Acquisition of real property for willing sellers and demolition or relocation of buildings to convert the property to open space use.
- Retrofitting structures and facilities to minimize damages from high winds, earthquake, flood, wildfire, or other natural hazards.
- Elevation of flood prone structures.
- Development and initial implementation of vegetative management programs.
- Minor flood control projects that do not duplicate the flood prevention activities of other Federal agencies.
- Localized flood control projects, such as certain ring levees and floodwall systems, which are designed specifically to protect critical facilities.
- Post-disaster building code related activities that support building code officials during the reconstruction process.

Ms. Lisa D'Allessandris, Clark County Communications Center, 3130 East Main Street, Suite 1E, Springfield, Ohio 45505; Email: <mailto:ldallessandris@clarkcountyohio.gov>.
Please respond no later than Friday, March 15, 2019.

Once updated, the Draft Plan will be posted on the County EMA website <http://www.clarkcountyohio.gov/index.aspx?NID=158> by April, 2019, for review and comments. Thereafter, the plan will be submitted for FEMA plan approval pending adoption. Once FEMA has approved the plan, your community will be asked to pass a resolution adopting the plan. The adoption must be done within one year after FEMA's approval has been given. (Note: township trustees are *not* required to pass a resolution adopting the plan since the County Commissioners will adopt the plan on behalf of all unincorporated areas.) There is no cost to the community to participate in the planning process. Those communities not participating in the plan will be ineligible for Pre and Post Hazard Mitigation Grant Program Funds.

Please do not hesitate to contact me should you have any questions or would like additional information. We look forward to serving Clark County in preparing these plan updates and we encourage your community's participation.

Sincerely,

Fax: 937-327-3862

Ms. Lisa D'Allessandris, Clark County Communications Center, 3130 East Main Street, Suite 1E, Springfield, Ohio 45505; Email: ldallessandris@clarkcountyohio.gov.
Please respond no later than Friday, March 15, 2019.

Once updated, the Draft Plan will be posted on the County EMA website <http://www.clarkcountyohio.gov/index.aspx?NID=158> by April, 2019, for review and comments. Thereafter, the plan will be submitted for FEMA plan approval pending adoption. Once FEMA has approved the plan, your community will be asked to pass a resolution adopting the plan. The adoption must be done within one year after FEMA's approval has been given. (Note: township trustees are *not* required to pass a resolution adopting the plan since the County Commissioners will adopt the plan on behalf of all unincorporated areas.) There is no cost to the community to participate in the planning process. Those communities not participating in the plan will be ineligible for Pre and Post Hazard Mitigation Grant Program Funds.

Please do not hesitate to contact me should you have any questions or would like additional information. We look forward to serving Clark County in preparing these plan updates and we encourage your community's participation.

Sincerely,

A handwritten signature in blue ink that reads 'Lisa D'Allessandris'.

Toni Keller, Mayor
Village of South Vienna
149 West Main Street, PO Box 569
South Vienna, Ohio 45369-0569

Dear Ms. Keller, *Toni*

The Clark County Emergency Management Agency is in the process of completing the 5-year update to the Clark County Multi-Jurisdictional Hazard Mitigation Plan.

Attached is a brief Hazard Mitigation Questionnaire to be completed by your community. Also attached are countywide mitigation actions that have been identified to be included in the Countywide Multi-jurisdictional Plan for the County and your community. Please review these previously identified action items for your community, then mark and return them to our office as **new, completed, deleted, deferred, unchanged or ongoing**. If the action item is unchanged please indicate the reason it is unchanged. Your community may also submit additional future mitigation projects or activities to be included in the updated plan. Some examples of Hazard Mitigation Grant Program projects that may qualify for future project funds are:

- Acquisition of real property for willing sellers and demolition or relocation of buildings to convert the property to open space use.
- Retrofitting structures and facilities to minimize damages from high winds, earthquake, flood, wildfire, or other natural hazards.
- Elevation of flood prone structures.
- Development and initial implementation of vegetative management programs.
- Minor flood control projects that do not duplicate the flood prevention activities of other Federal agencies.
- Localized flood control projects, such as certain ring levees and floodwall systems, which are designed specifically to protect critical facilities.
- Post-disaster building code related activities that support building code officials during the reconstruction process.

To learn more about the Hazard Mitigation Grant Program you may visit FEMA's website at: <https://www.fema.gov/hazard-mitigation-assistance>

Please respond by returning the attached questionnaire with your community's action item updates by mailing or emailing to the Clark County Emergency Management Agency, Attn:

2018-2019 CLARK COUNTY HAZARDS MITIGATION SURVEY UPDATE**1. Community Name**

2. Name, phone number, fax and e-mail address of contact for this community information:

3. Please provide any updated information changes for addresses/phone numbers of all your critical facilities. Critical facilities are defined as hospitals, emergency treatment centers, schools, skilled care facilities, fire, EMT and police facilities, government buildings, water, wastewater treatment facilities, electrical/gas and communication facilities, detention centers, etc. Has your community added any new critical facilities such as skilled care/assisted living facilities, schools, fire/EMT/police facilities, government buildings, water/sewer plants since the 2012 Hazard Mitigation Plan?

4. Provide a list of any new facilities constructed since 2012 that have the ability to hold large crowds such as arenas, and sporting events, etc. Please give the name and location of these new facilities.

5. Has your community added any type of early warning detection system(s) within your village since the last County Hazard Mitigation Plan update in 2012? Please describe:

6. Since 2012 are you aware of new natural hazard concerns that need to be addressed within your community?

7. Are any of the following natural hazards a serious concern in your community?

Hazards		YES	NO
Floods			
<i>f</i>	100-year Floodplain Floods - <i>defined with the NFIP Maps</i>		
<i>f</i>	Flash Floods - <i>defined as flooding that follows heavy rain</i>		
<i>f</i>	Non-Flood Zone Floods - <i>defined as flooding that occurs in areas not defined as floodplains, usually in areas that have been developed at a fast rate.</i>		
Tornadoes			
<i>f</i>	Tornadoes		
Severe Storms - Please Note: Severe storms are a “catch all” of hazards that do not meet other specific criteria.			
<i>f</i>	Ice Storms		
<i>f</i>	Hail		
<i>f</i>	Winter Storms		
<i>f</i>	Thunderstorms		
<i>f</i>	High and Low Temperatures		
<i>f</i>	Lightning		
<i>f</i>	High Winds		
Earthquakes			
<i>f</i>	Earthquakes		
Droughts			
<i>f</i>	Droughts or Wild land Fires		

If answering yes, please describe your concerns.

8. What infrastructure concerns does your community have as it relates to flooding (for example, please list any intersections, culverts, and or bridges that have systemic flooding issues)? If you are not familiar with these, can you provide the name of a contact person in your community that may know?

9. Are you aware of any structures that have been removed from the 100 Yr. Flood Plain within your community since the 2012 Clark County Hazard Mitigation Plan Update?

10. Have any of the following documents been revised within your community since the last County Hazard Mitigation Plan Update in 2012?

1. <u>Comprehensive Plan(s)</u>	YES	NO
2. <u>Floodplain Ordinance(s)</u>	YES	NO
3. <u>Land Use Ordinance(s)</u>	YES	NO
4. <u>Organized Watershed Group(s)</u>	YES	NO

Are there any other planning document updates in your community since 2012?

2018-2019 CLARK COUNTY HAZARDS MITIGATION SURVEY UPDATE

1. Community Name

City of New Carlisle

2. Name, phone number, fax and e-mail address of contact for this community information:

Howard Kitko 937-604-2116 (cell) 937-845-9492 x 12 (office)
 937-845-2338 (Fax)
 HKitko@newcarlisle.net

3. Please provide any updated information changes for addresses/phone numbers of all your critical facilities. Critical facilities are defined as hospitals, emergency treatment centers, schools, skilled care facilities, fire, EMT and police facilities, government buildings, water, wastewater treatment facilities, electrical/gas and communication facilities, detention centers, etc. Has your community added any new critical facilities such as skilled care/assisted living facilities, schools, fire/EMT/police facilities, government buildings, water/sewer plants since the 2012 Hazard Mitigation Plan?

No updated information

4. Provide a list of any new facilities constructed since 2012 that have the ability to hold large crowds such as arenas, and sporting events, etc. Please give the name and location of these new facilities.

No new facilities.

5. Has your community added any type of early warning detection system(s) within your village since the last County Hazard Mitigation Plan update in 2012? Please describe:

Yes - Federal Signal Tornado Siren in 2012.

6. Since 2012 are you aware of new natural hazard concerns that need to be addressed within your community?

No.

10. Have any of the following documents been revised within your community since the last County Hazard Mitigation Plan Update in 2012?

1. <u>Comprehensive Plan(s)</u>	<u>YES</u>	<u>NO</u>
2. <u>Floodplain Ordinance(s)</u>	<u>YES</u>	<u>NO</u>
3. <u>Land Use Ordinance(s)</u>	<u>YES</u>	<u>NO</u>
4. <u>Organized Watershed Group(s)</u>	<u>YES</u>	<u>NO</u>

Dependent upon date of Adoption.

Are there any other planning document updates in your community since 2012?

NO.

2018-2019 CLARK COUNTY HAZARDS MITIGATION SURVEY UPDATE**1. Community Name**Village of Clifton**2. Name, phone number, fax and e-mail address of contact for this community information:**Sue Chasnov, Clerk-Treasurer(937) 342-2175SCHASNOV@NETZERO.NET

3. Please provide any updated information changes for addresses/phone numbers of all your critical facilities. Critical facilities are defined as hospitals, emergency treatment centers, schools, skilled care facilities, fire, EMT and police facilities, government buildings, water, wastewater treatment facilities, electrical/gas and communication facilities, detention centers, etc. Has your community added any new critical facilities such as skilled care/assisted living facilities, schools, fire/EMT/police facilities, government buildings, water/sewer plants since the 2012 Hazard Mitigation Plan?

NA

4. Provide a list of any new facilities constructed since 2012 that have the ability to hold large crowds such as arenas, and sporting events, etc. Please give the name and location of these new facilities.

None

5. Has your community added any type of early warning detection system(s) within your village since the last County Hazard Mitigation Plan update in 2012? Please describe:

None

6. Since 2012 are you aware of new natural hazard concerns that need to be addressed within your community?

No

7. Are any of the following natural hazards a serious concern in your community?

Hazards	YES	NO
Floods		
<i>f</i> 100-year Floodplain Floods - <i>defined with the NFIP Maps</i>		✓
<i>f</i> Flash Floods - <i>defined as flooding that follows heavy rain</i>		✓
<i>f</i> Non-Flood Zone Floods - <i>defined as flooding that occurs in areas not defined as floodplains, usually in areas that have been developed at a fast rate.</i>		✓
Tornadoes		
<i>f</i> Tornadoes		✓
Severe Storms - <i>Please Note: Severe storms are a "catch all" of hazards that do not meet other specific criteria.</i>		
<i>f</i> Ice Storms		✓
<i>f</i> Hail		✓
<i>f</i> Winter Storms		✓
<i>f</i> Thunderstorms		✓
<i>f</i> High and Low Temperatures		✓
<i>f</i> Lightning		✓
<i>f</i> High Winds		✓
Earthquakes		
<i>f</i> Earthquakes		✓
Droughts		
<i>f</i> Droughts or Wild land Fires		✓

If answering yes, please describe your concerns.

8. What infrastructure concerns does your community have as it relates to flooding (for example, please list any intersections, culverts, and or bridges that have systemic flooding issues)? If you are not familiar with these, can you provide the name of a contact person in your community that may know?

We have aging storm drain (catch basins & drain tile) infrastructure, especially problematic along Jackson St.

9. Are you aware of any structures that have been removed from the 100 Yr. Flood Plain within your community since the 2012 Clark County Hazard Mitigation Plan Update?

No

10. Have any of the following documents been revised within your community since the last County Hazard Mitigation Plan Update in 2012? *No*

1. <u>Comprehensive Plan(s)</u>	YES	NO
2. <u>Floodplain Ordinance(s)</u>	YES	NO
3. <u>Land Use Ordinance(s)</u>	YES	NO
4. <u>Organized Watershed Group(s)</u>	YES	NO

Are there any other planning document updates in your community since 2012?

No
